INNOVATIVE SOLUTIONS @ REASONABLE PRICES

TechCare Services

In 2003, ASIS launched *TechCare*, an innovative annual services contract mechanism, to a group of established clients. In a matter of days the positive feedback began to flood our phone lines and inboxes. *TechCare* was a huge success in this test market. As a result, ASIS decided to offer *TechCare* services to all of our clients.

Now, there are three great service lines from which to choose. *TechCare* Response, *TechCare* Maintenance and *TechCare* Management are all customizable solutions to meet the individual needs of our clients. How can we assist you in keeping your network up and running? Need minimal support? *TechCare* Response is the service for you! Do you need us to manage your entire network? Ask us about *TechCare* Management! No matter your need, we have the *TechCare* Service that is right for your business.

TechCare offers clients a proactive approach to network management and maintenance, while at the same time providing a budgeted approach to IT costs.
